

## Hadiah Blog dari UMY

---

Alhamdulillah, setelah sekian lama menunggu, akhirnya datang juga hadiah blog resmi dengan alamat <http://riyadi.staff.umy.ac.id>. Terima kasih saya ucapkan kepada [sahabat sayadan](#) [Bapak juragan komputer UMY](#).

Blog ini merupakan kelanjutan dari blog gratisan di <http://masimet.blogspot.com> yang telah saya punyai sejak 2005. Semua content dalam Blogger saya tersebut telah sukses dicopy ke blog ini dengan menggunakan menu Tools -> Import di dalam Wordpress. Cuma uniknya, cara import standard dengan menu Tools -> Import -> Blogger gagal dilakukan. Proses importing berhasil dengan sedikit trik, yaitu:

1. Login ke blogger, pilih menu Setting – Basic – Blog Tools, klik “Export blog” sehingga muncul tampilan di bawah ini. Kemudian klik “Download blog” dan simpan pada Desktop komputer (agar mudah menemukannya)

The screenshot shows the Blogger dashboard with the title "A picture is worth a thousand words". The navigation menu includes "Posting", "Settings", "Design", "Monetize", and "View Blog". Below this, there are links for "Basic", "Publishing", "Formatting", "Comments", "Archiving", "Site Feed", "Email & Mobile", "OpenID", and "Perm". The main content area is titled "Export your blog" and contains the following text: "Export your blog into the Blogger Atom export format. You can do this to move your blog to another blogging service or simply to store your blog on your own hard drive. [Learn more](#)". Below this text is a note: "Don't worry, your blog will still remain on Blogger until you delete it." At the bottom of the content area, there is an orange button labeled "DOWNLOAD BLOG" and a blue link labeled "Back to Basic Settings".

2. .... (tobecontinued)
